AI-ENABLED OPERATIONS AND COMMERCIAL SYSTEMS LEADER

Revenue Enablement | Customer Operations | Workflow and Systems Design | Adoption and Team Leadership

PROFESSIONAL SUMMARY

Commercial, customer, and operations leader with 15+ years building teams and repeatable operating systems across revenue generation, enablement, client delivery, and company operations. Combines measurable commercial outcomes with current work designing governed AI-enabled workflows, translating business requirements into decision rules, validation, human review, and practical operating guidance. Strongest where new systems must work for the people using them and produce visible business results.

CORE CAPABILITIES

AI-Enabled Workflow Design | Revenue and Sales Enablement | Customer and Commercial Operations | Business-to-Technical Translation | Process Improvement | Playbooks and Training | Adoption and Change Management | Team Leadership and Coaching | Cross-Functional Execution | AI Evaluation and QA | Human-in-the-Loop Controls | Salesforce and CRM

PROFESSIONAL EXPERIENCE

Founder & AI Operations Systems Builder **Jun 2026 - Present**
RESPONSE FLOW SYSTEMS

- Design and direct development of governed, human-supervised AI-enabled workflows; translate operating needs into defined stages, decision rules, evidence requirements, acceptance criteria, handoffs, and escalation paths.
- Developed a Python and SQLite system of record with deterministic evaluation, lifecycle state management, evidence provenance, validation controls, provider and model abstraction, and bounded service interfaces.
- Use AI coding agents for bounded implementation, inspection, testing, and refinement; evaluate tools and models for workflow fit, reliability, quality, privacy, and cost before broader use.

AI & Business Systems Development **May 2024 - Jun 2026**
PROFESSIONAL DEVELOPMENT & FAMILY CAREGIVING

- Maintained professional continuity through family caregiving while building hands-on fluency in AI-assisted workflows, agentic systems, automation, process design, documentation, QA, and human oversight.

Senior Business Development & Enablement Manager **Feb 2023 - May 2024**
VISIATIV–ABGI

- Helped redesign prospecting, qualification, discovery, playbooks, recurring training, and coaching as part of a broader enablement program that contributed to 40% higher conversion and 30% faster ramp time.
- Turned frontline feedback and performance patterns into clearer workflows, role expectations, training, and reusable guidance for audiences of approximately 60 people and 30+ business development managers.
- Introduced and helped operationalize ChatGPT-assisted research and qualification to improve purchased lead data before distribution, pairing adoption with Salesforce-supported process discipline and visibility.
- Supported $2.5M+ in quarterly pipeline through stronger execution standards, coaching, and repeatable qualification practices across the commercial motion.

Senior Sales & Strategic Account Manager **May 2021 - Mar 2023**
VESSEL BRAND

- Led and coached a 15-person customer-facing team, supporting new product-line rollouts through structured discovery, clear value communication, accountability, and consistent execution.
- Generated $2M+ in recurring revenue and increased average deal size 35% through stronger customer insight, disciplined follow-through, and practical team coaching.
- Converted recurring customer and team feedback into clearer operating practices, coaching priorities, and repeatable approaches to commercial and account-management problems.

PROFESSIONAL EXPERIENCE CONTINUED

Senior Manager, Client Operations & Accounts **May 2017 - Apr 2021**

APEX LABS LLC

- Improved recurring revenue 30% while standardizing customer-lifecycle workflows, handoffs, reporting, and account-management practices.
- Led client business reviews and translated requirements into customer-specific end products, coordinating across internal teams and maintaining clear expectations through delivery.
- Used customer needs, process feedback, and operating observations to identify breakdowns, strengthen documentation, and build clearer, repeatable workflows.

Realtor **Feb 2010 - Mar 2020**

RALPH REALTY INC.

- Translated market information, constraints, and tradeoffs into clear recommendations that improved client decision confidence.
- Generated repeat business and referrals through responsive communication, disciplined execution, and long-term client trust.

Co-Founder & CEO **Jan 2003 - Feb 2013**

RIGHT CHOICE SECURITY

- Co-founded and scaled a service organization to 56 employees while maintaining approximately 90% client retention.
- Built repeatable systems for hiring, onboarding, training, scheduling, SOPs, reporting, customer communication, and service execution.
- Led follow-on client needs analysis after initial rollout, uncovering additional-site requirements and securing expanded contracts; used forecasts, market sizing, competitor analysis, and cost-benefit decisions to guide growth.
- Coached employees and established operating guidance that helped frontline teams make better decisions independently while maintaining consistent service standards.

SELECTED SYSTEMS AND TOOLS

AI and systems: Claude | ChatGPT and Codex | AI Coding Agents | Governed AI Workflows | AI Evaluation and QA | Human-in-the-Loop Automation | Workflow Documentation | Acceptance Criteria | Make | OpenRouter | GitHub

Commercial and operations: Salesforce | Excel | Google Workspace | Tally | Obsidian

EDUCATION AND CREDENTIALS

B.S., Business Administration

Credentials: Salesforce CRM and Sales Operations | Meta Marketing Analytics | Google AI
